

## Investing in the quantum future

Quantonation is an early Stage VC fund focusing on disruptive **Quantum Technology** and **Deep Physics** startups, with founders who have the ambition to **solve some of the world's biggest challenges**.

We have a unique understanding of **science & entrepreneurship**, and **powerful business connections** with already more than 100 companies in our portfolio and several deals closed.

We are raising a **€40m fund** to invest in **seed** stage worldwide for 2019-2023 deployment.

### What do we do ?

Talk to scientists and founders, assess the technical and commercial feasibility of their projects, help them become entrepreneurs and leaders: that's what we do every day at Quantonation.

Our deep understanding of the science and of the sector's dynamism makes us natural **strategic investors** and ideal partners for generalist VC coinvestors

With us, LPs benefit on top of financial performance and:

- Join the global **Quantum community**
- Have privileged access to **next generation technologies**
- Receive "State of Quantum" **annual report**
- Position disruptive technologies onto **roadmap**
- Get regular **updates** on sector's dynamism
