The increase in AuM for the company's asset management activity reached +€3.0bn over the first nine months of the year, representing a growth of 26% since the start of the year.

The internationalisation of the Group's investor base in its asset management activities progressed during Q3 2018, with continued fundraising in Europe, and increasing success throughout the rest of the world.

The Group is continuing its fundraising momentum across all of its strategies, particularly in the ones comprised of closed-end funds, with new closings expected during the fourth quarter.

Since 30 September, the Group has launched several promising initiatives both through partnerships and external growth operations.

Tikehau Capital and Groupama have announced the launch of the Groupama Tikehau Diversified Debt Fund (GTDDF), the first fund designed in partnership by two asset management companies to support French and European SMEs. This specialised professional fund, with a 12 year maturity, has just executed its first closing for a total of €115m, including commitments from the European Investment Fund (EIF),

Groupama and Tikehau Capital.

Tikehau Capital also outlined details on the projects flowing from the strategic partnership agreement with DWS, announced at the occasion of DWS' IPO. These agreements cover the launch of a joint product in 2019, and the completion of cross investments throughout both Groups' respective funds.

The Group has also announced the acquisition of ACE Management, an asset management company with €440m in assets under management, specialising in the aeronautical, defence and cyber-security sectors, reinforcing further the Group's Private Equity activities.

Additionally, the Sofidy acquisition process remains ongoing, with the transaction still expected to be completed by the end of the year.
